DETAILED ACTION

1. This action is responsive to RCE received on Oct. 4, 2004. Claims 27, 31, 32, 41, 54 and 58 were canceled. Claims 1-26, 28-29, 33-40, 42-53 and 55-57 are pending examination.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1-26 and 28-29, drawn to modifying a network interface driver, classified in class 709, subclass 220.
 - II. Claims 30, 33, 51-53 and 55-57, drawn to a shared buffer that stores code for a distributed based security address space, classified in class 709, subclass 226.
 - III. Claims 34-40 and 42-50, drawn to selective transmission of packets to protocol drivers, classified in class 709, subclass 228.
3. The inventions are distinct, each from the other because of the following reasons:
- Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as sharing buffer that stores code for a distributed based security address space and invention III has separate utility such as selective transmission of packets to protocol drivers. See MPEP § 806.05(d).
4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one

or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. A shortened statutory period for response to this action is set to expire thirty days from the mailing of this communication. Failure to respond within the period for response will cause the application to become abandoned (35 USC 133). Extension of time may be obtained under provision of 37 CFR 1.136(A).
